CASH ON THE DECLINE

RISK OF INSOLVENCY

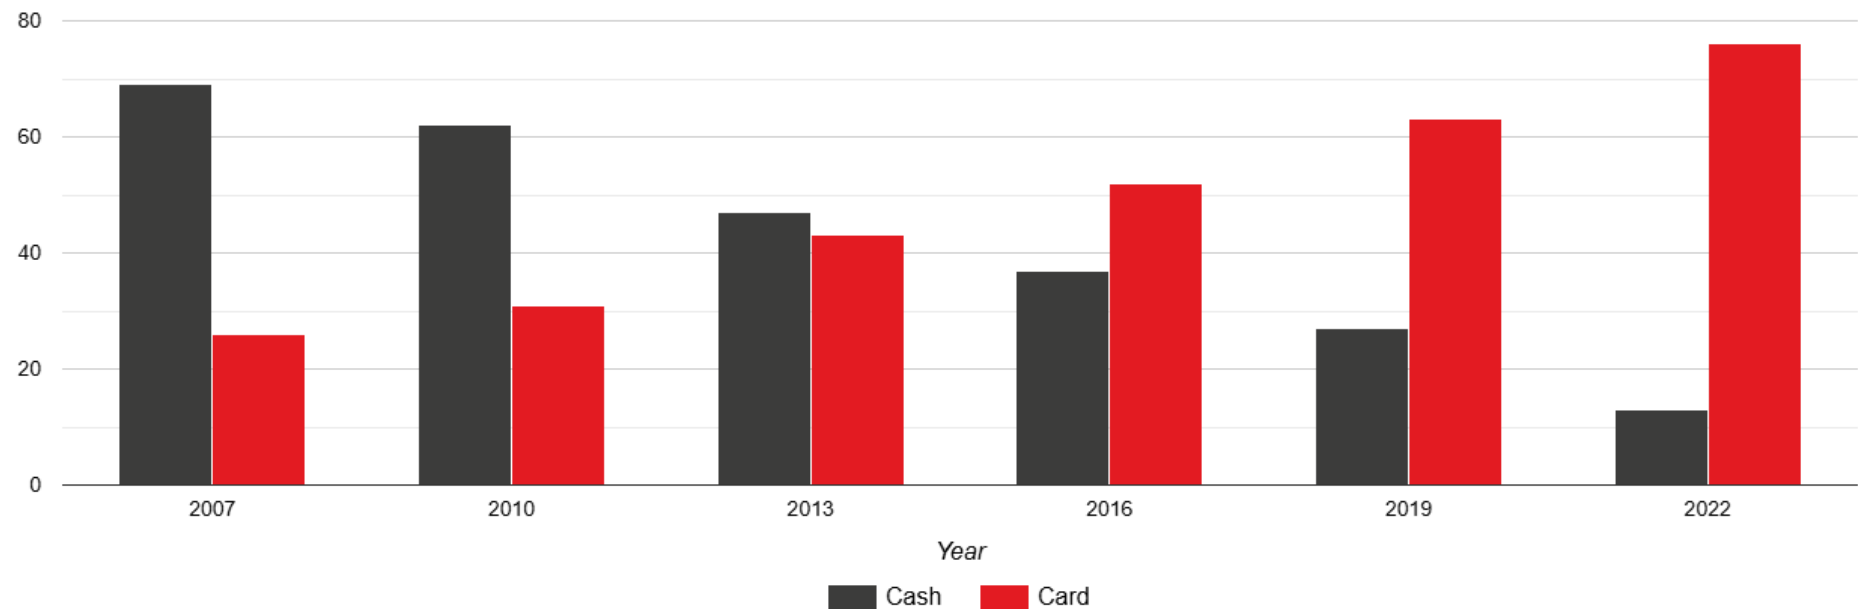

Why Australia
Could Be
Facing A Cash
Shortage
THE PROJECT

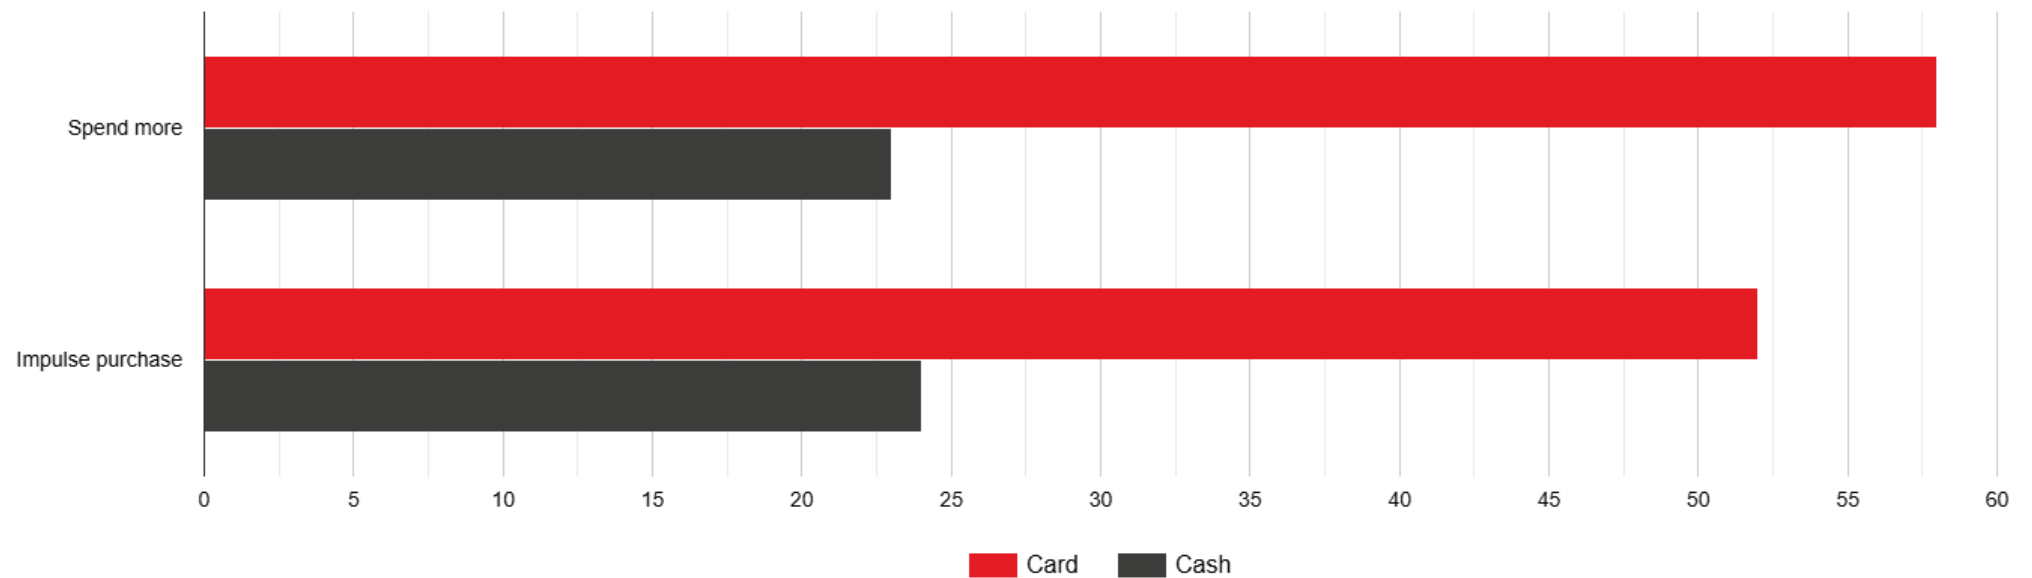

Could **coles** go completely cashless
and offer self-service checkouts only?

Payment methods

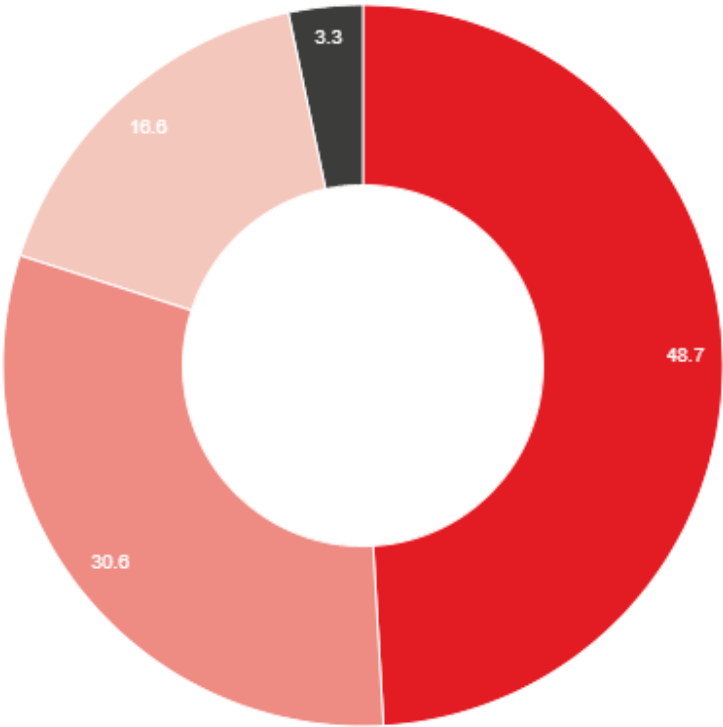

Adapted from *Consumer Payment Methods* by T. Nguyen and B. Watson 2023.
<https://www.rba.gov.au/publications/bulletin/2023/jun/consumer-payment-behaviour-in-australia.html>

Buying behaviour

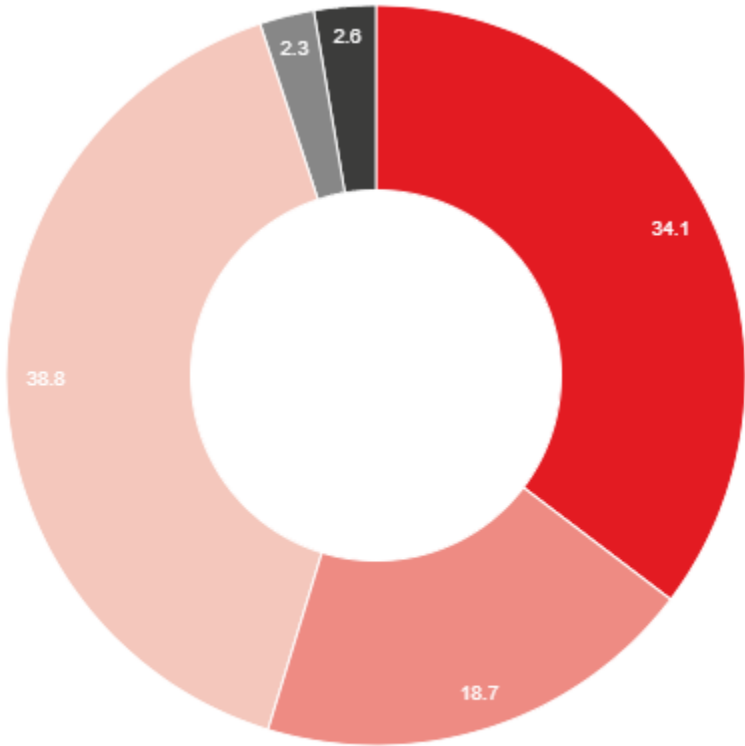

Adapted from *People Are Twice As Likely To Spend More Money When Using Card Than Cash In 2024* by K. Haan 2024.
<https://www.forbes.com/advisor/business/software/people-twice-likely-spend-using-card-than-cash/>

Customers are using self-service checkouts a lot

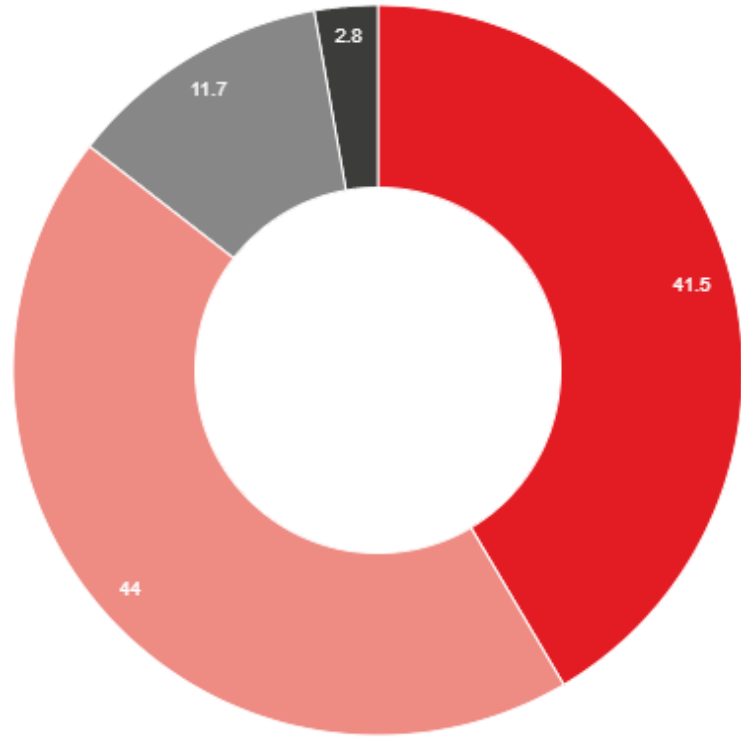

And expect their usage to increase in future

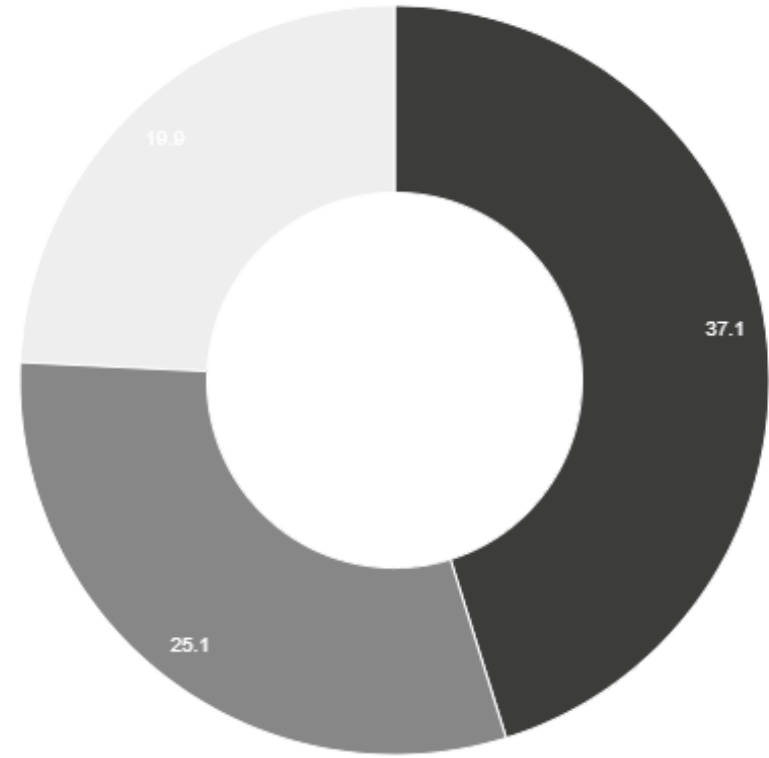

● All the time ● Some of the time ● Every now and then ● Never ● Way more ● A bit more ● About the same ● A little less ● Way less

Customers believe self-service checkouts are faster

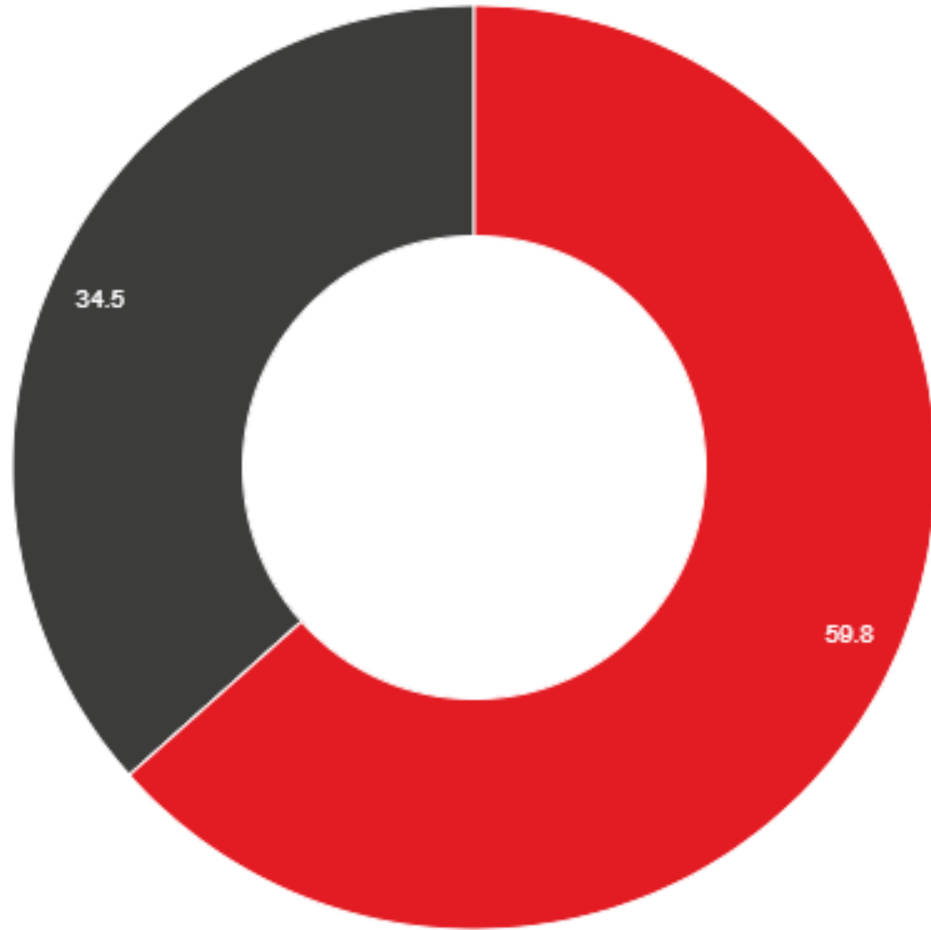

● Agree ● Somewhat agree ● Disagree ● Strongly disagree

But bad experiences can drive them away

● Slow ● Don't work ● Human interaction

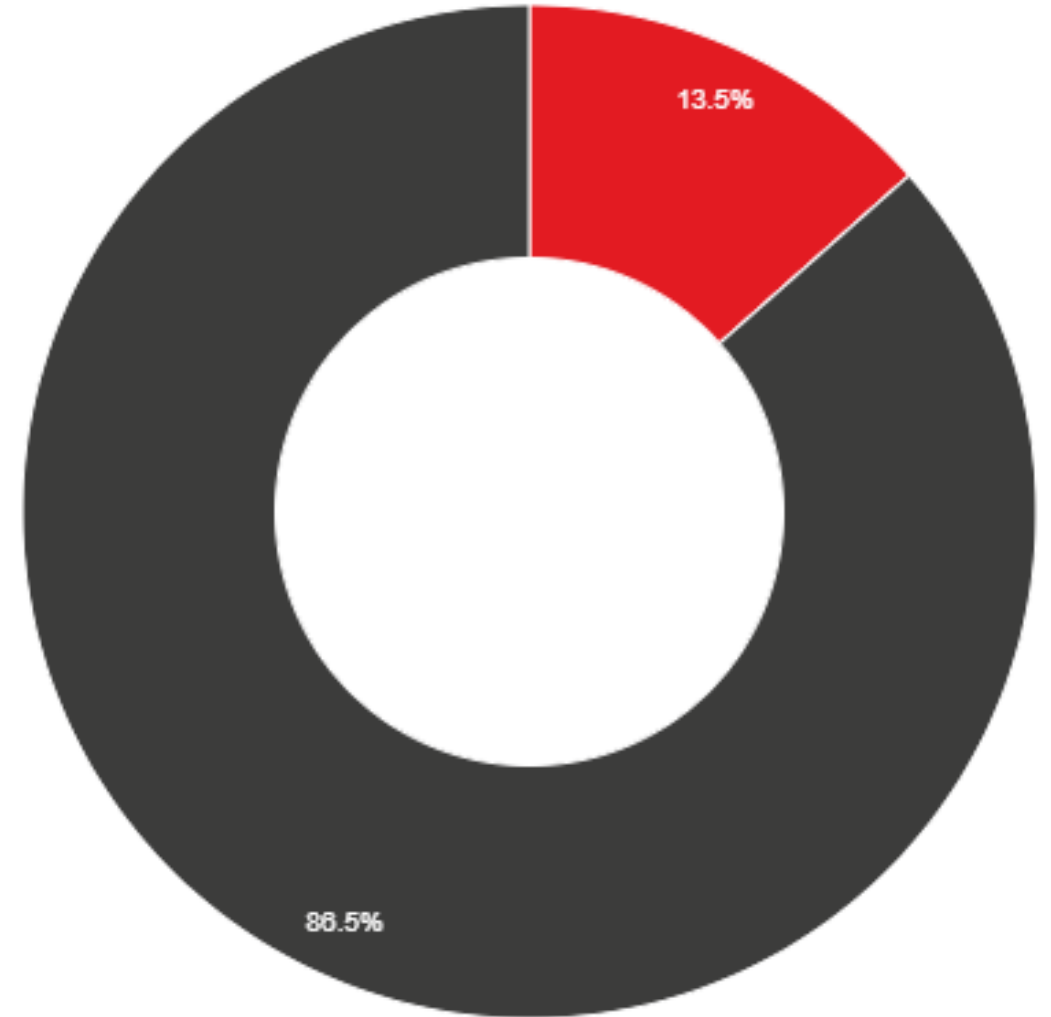

Customers prefer self-service if given an option

● Self service ● Staff assisted

Australians want self-service checkouts to go

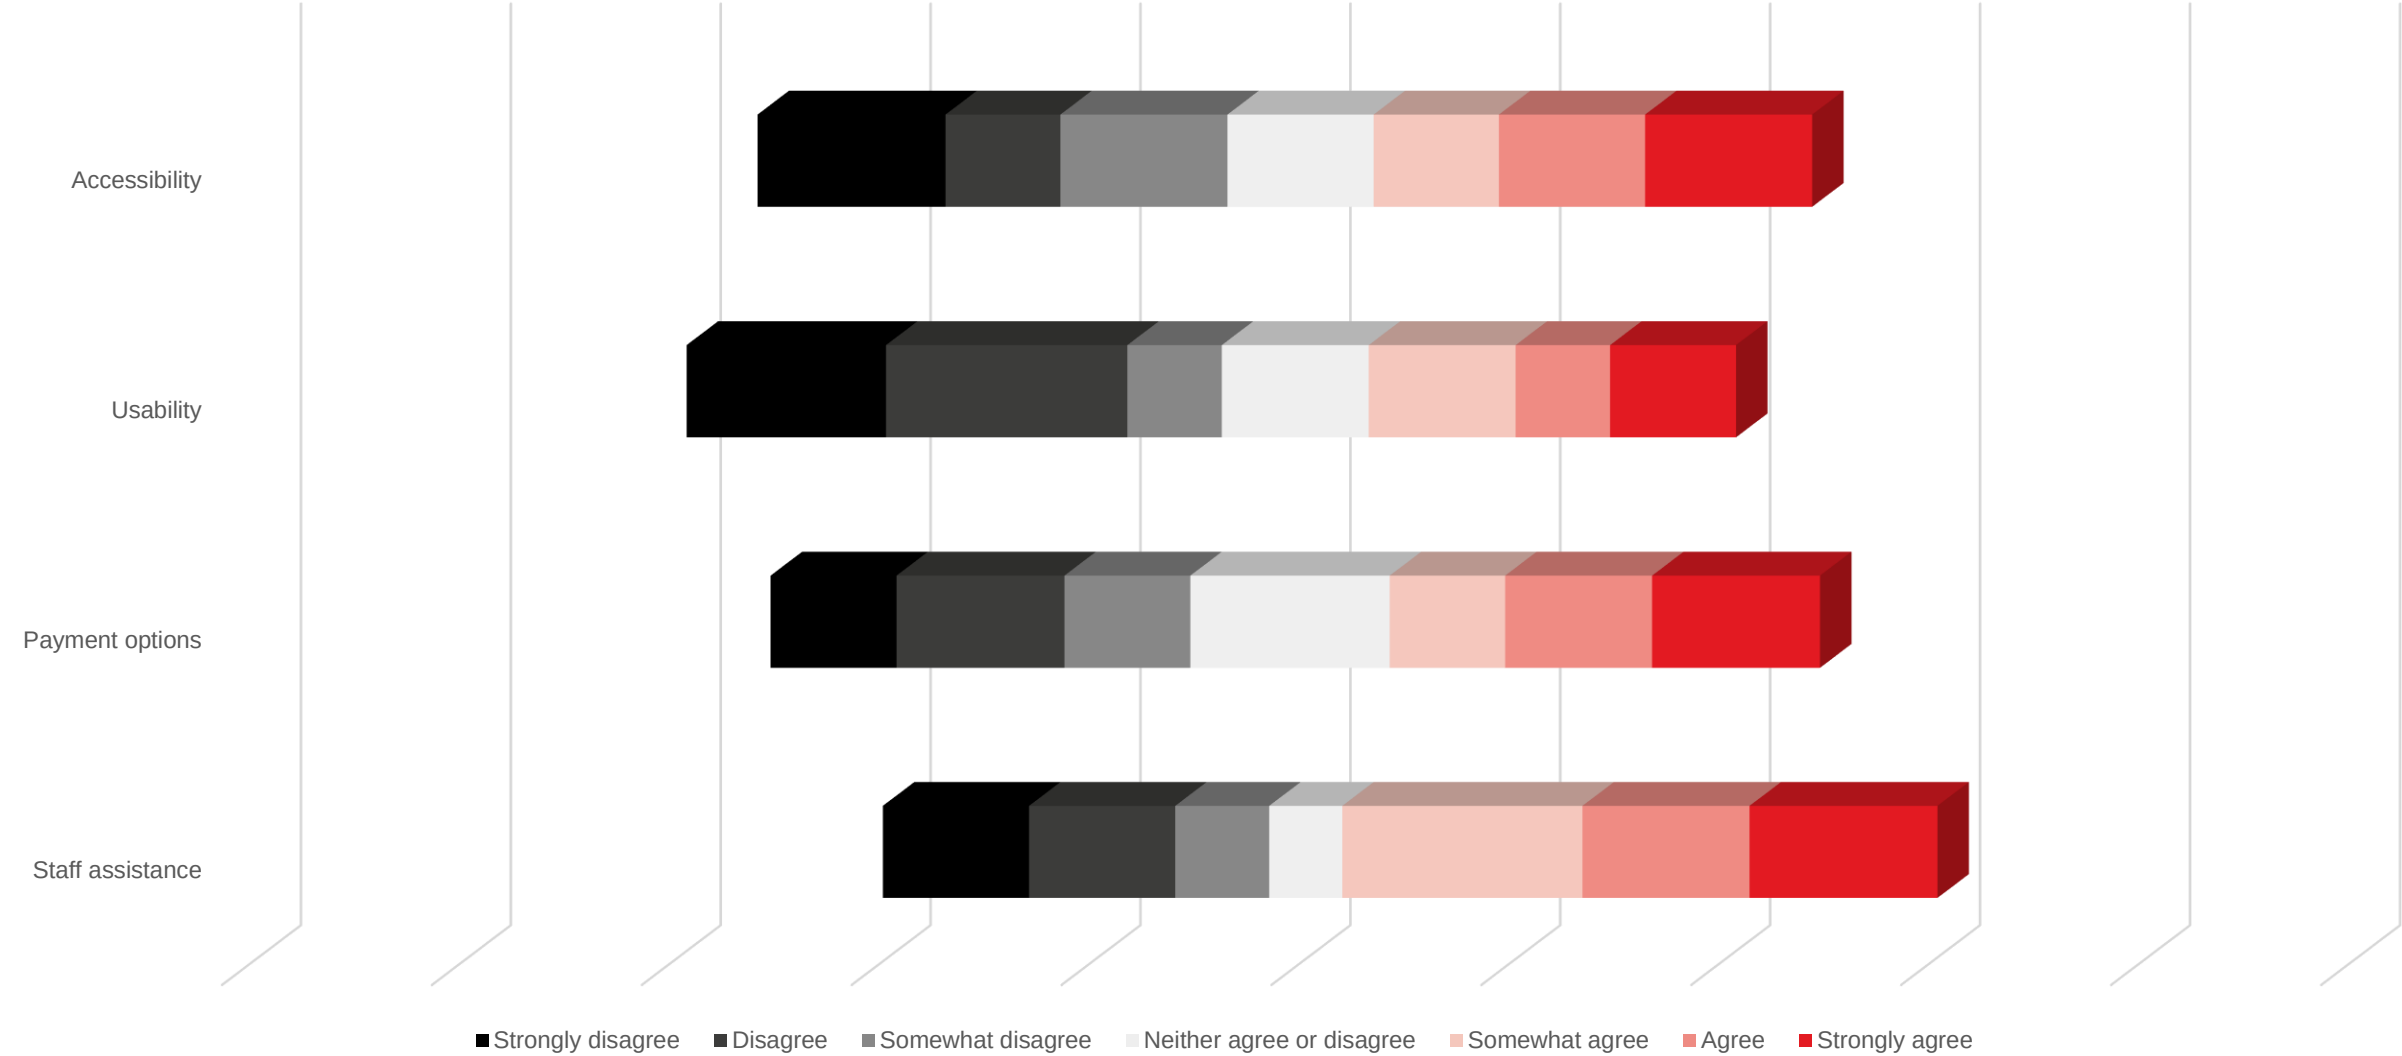

VS

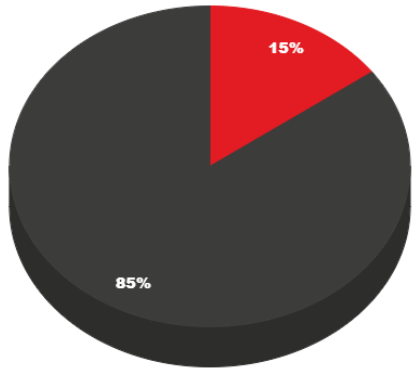

Customer opinions on the factors relevant to self-service checkout preference

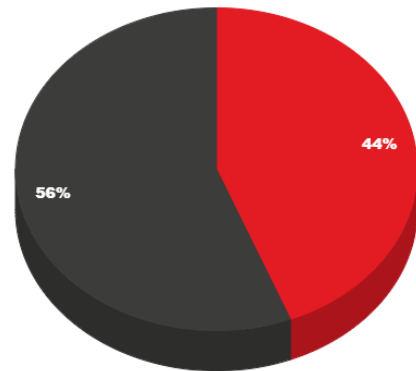

VS

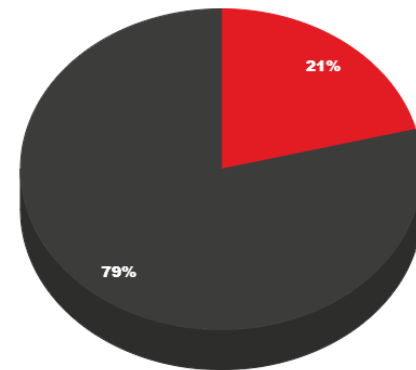

Admitted to stealing

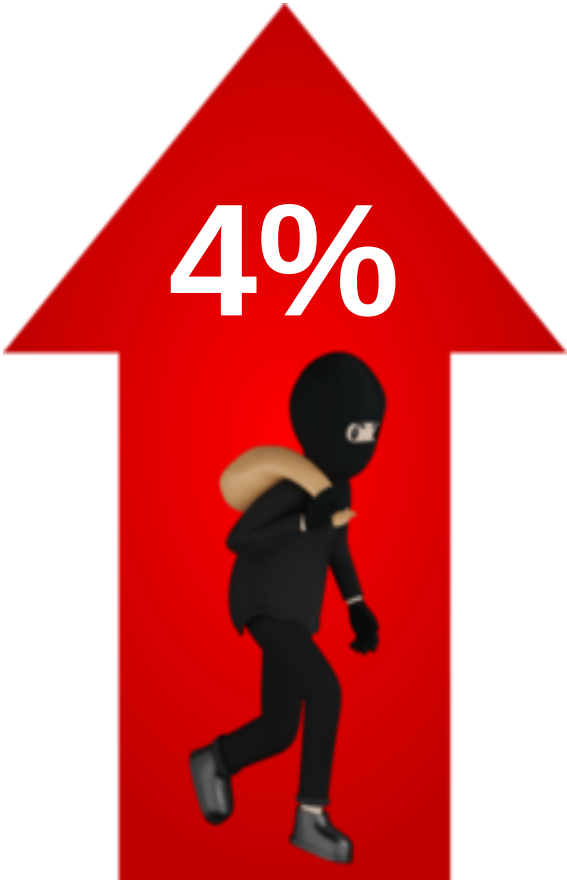

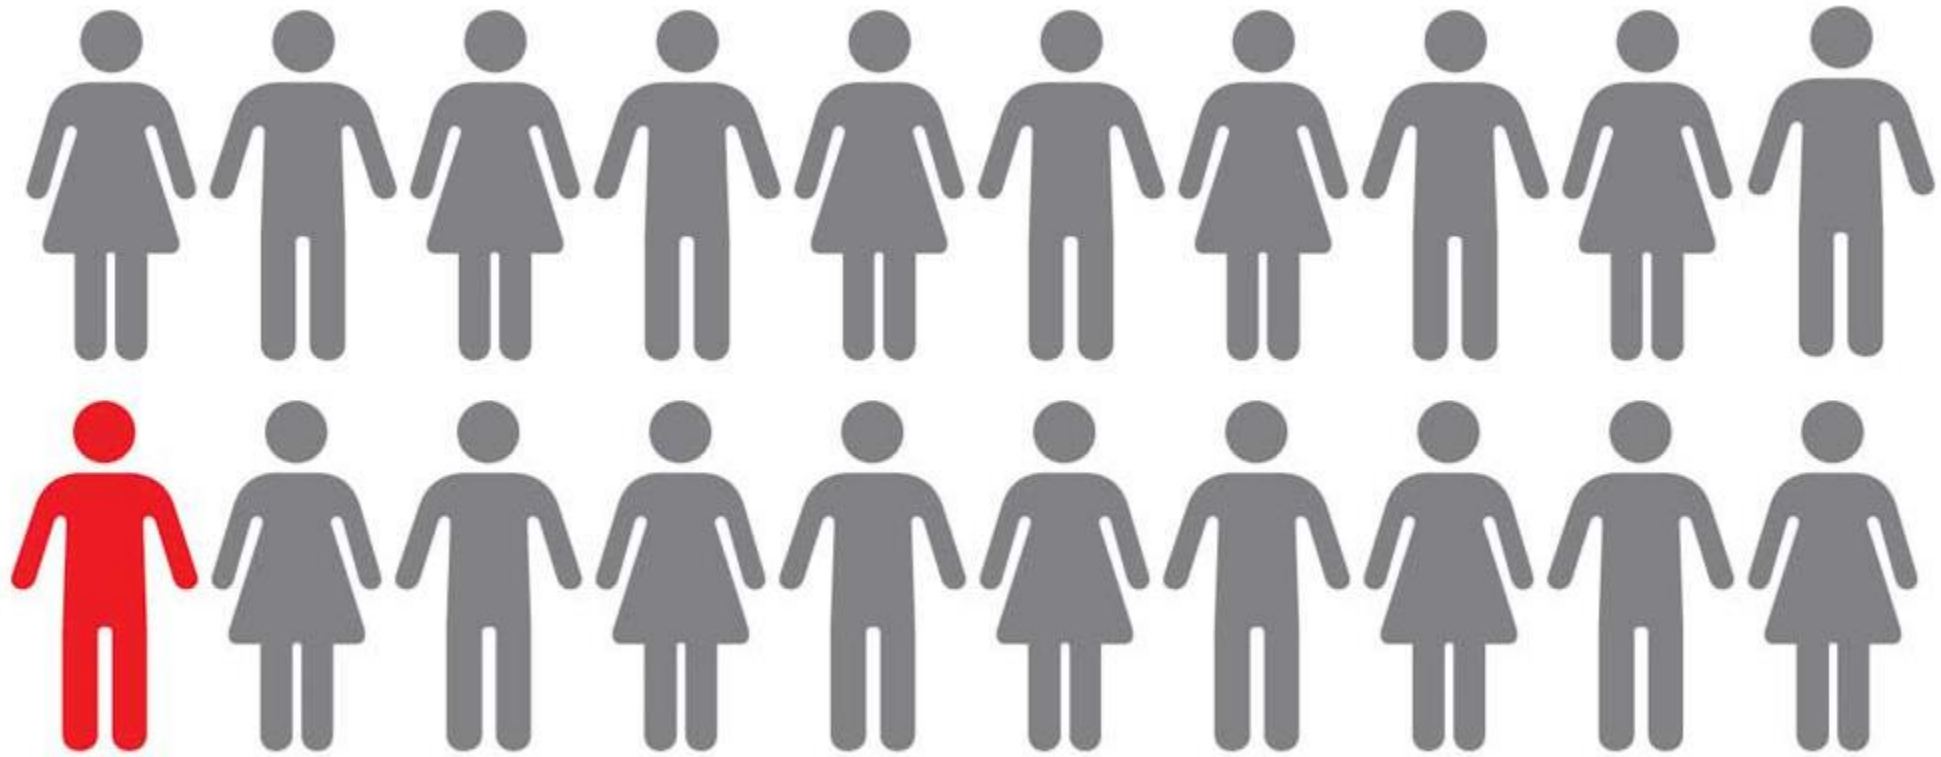

Planning to steal again

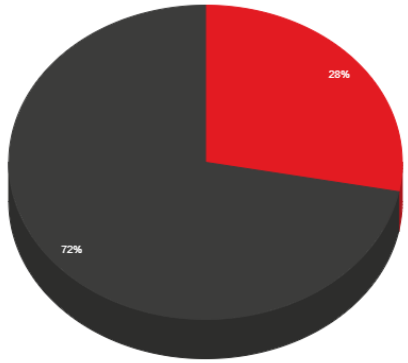

Taking an item accidentally but did not correct the mistake

Shrinkage

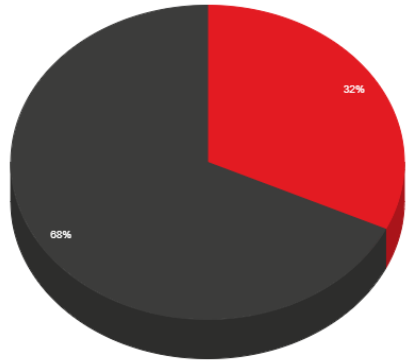

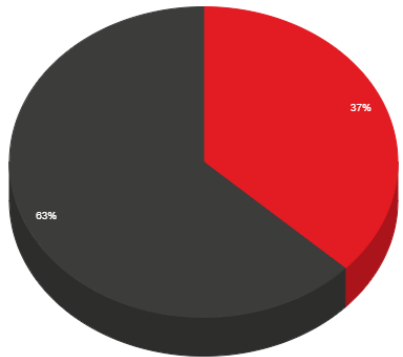

1 in 20 Australians admitted to stealing at a self-service checkout

Taking an item without paying

Not scanning some items at a self-service checkout

Scanning items as cheaper items at self-service checkout

20%

coles losses
